Big or small, any condition.

(receive 3 free raffle tickets)

### October Raffle

Bring in an unwanted tool, wood, whatever to donate to our raffle to support the guild.

(enter and win a bargain as well)

## President's Corner

by Les Derusha

For the October meeting we are introducing a new feature of the Guild meetings. For lack of a better name, I'll call it **Ask and Answer**.

We all have issues, in the shop, on a project, a technique, our tools or the shop itself. I would ask for anyone looking for help to share it with the audience. It could be discussed shortly **OR Plan B**, make an arrangement where the Asker and the Answer person can discuss the issue and/or visit the Asker's or Answer's shop for a hands-on session.

This does a couple of things; 1. It addresses the Asker's problem and 2. The two participants get to know each other better and their skills as well.

The other benefit of this situation is just being in another's shop and getting ideas for layout, storage, tools, handy jigs etc. that you may be interested in or hadn't even thought about

This would also help meet the Guild's By-Laws Purpose statement:  
**"woodworkers sharing knowledge and skills"**.

So come join us for our next meeting and **Ask** for help!

One more thing about help, the Guild **NEEDS** a new **Vice-President**. It's to fill in for the president when they are not available. Mostly this is running Guild meetings when the president is not there. If you have any interest, call me at 616 446-4008.

## September Show and Tell

**Tom McCarthy** Rocking Chair: 1<sup>st</sup> Place \$50

Sycamore / Red Oak stain / 2 coats Varathane

**Dennis Beard** tie 2<sup>nd</sup> Place \$25

# October's Tools - Tips - Tricks

## Self-Centering Hinge Drill Bit

- Drill accurate holes for hinges, handles, drawer slides and more.
- Standard hex shape fits all power bit and quick-change chucks.
- Spring loaded
- Self-centering

## Hard Wax Oil Finishes (Briwax, Osmo)

**Easy to apply** – Brush, Roller, Pad, Cloth, (doesn't need dust free room)

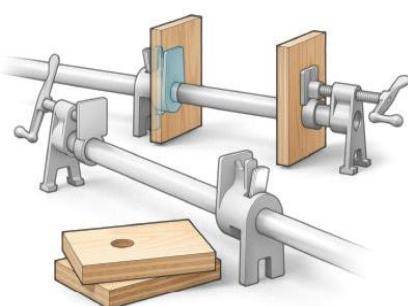

**Safe for food contact** when cured. Low or no VOC's

**Hardens.** Use for floors, doors, furniture, mill work, boxes etc.

**Hand Rub look.** Buff if desired  
**Reapply easily when needed**  
**Will not crack or peel**

## Pads for Pipe Clamps

After struggling with trying to keep loose pads in place when using pipe clamps, I hit upon the idea of attaching the pads to the clamps. To accomplish this, I simply drill a hole for the pipe through a scrap of plywood. I typically use 1/2" or 3/4" ply, cutting the pieces an inch or two wider than the clamp's jaws to better distribute the clamping pressure. I position the holes so the bottom edge of the pad is just barely above the bench surface when the clamp is standing on its feet. And I can customize the height of the pad depending on what I'm clamping. (Good for Glue-ups)
